Skills

PHP ● ● ● ● ●

- **PHP Web Development:** Developed several web applications using PHP, focusing on backend logic, form validation, and data handling.
- **Framework Familiarity:** Worked with PHP frameworks like Laravel for rapid application development and MVC architecture.
- **Database Interaction:** Proficient in using PHP for database interactions, including CRUD operations and dynamic content generation.
- **Custom PHP Scripts:** Created custom PHP scripts for automation and data processing tasks.

Figma to HTML, CSS ● ● ● ● ●

- **Figma to HTML/CSS Conversion:** 5+ years of experience in converting Figma designs into pixel-perfect, responsive HTML and CSS, ensuring cross-browser compatibility and optimal performance.
- **Semantic HTML:** Expertise in writing clean, semantic HTML5 code that adheres to web standards and accessibility guidelines.
- **CSS Expertise:** Proficient in CSS3, including Flexbox, Grid, animations, and transitions, to bring designs to life.
- **Responsive Design:** Skilled in creating responsive designs that adapt seamlessly to different screen sizes and devices.
- **Cross-Browser Compatibility:** Ensures that all converted designs work smoothly across major browsers, including Chrome, Firefox, Safari, and Edge.

Certificates

- Cambly Certificate of Accomplishment [🔗](#)
- P213 Enuygun PHP Bootcamp [🔗](#)
- Responsive Web Development [🔗](#)
